SUMMARY

I'm a Front-End Developer and Computer Engineering student who loves building dynamic web applications with React and Next.js. Besides front-end development, I also dabble in back-end with Node.js. I used to enjoy working on robotics and electronics projects with Arduino as well.

I am passionate about learning new skills and, as a problem solver, love the challenges of projects. My interest is team-working to bring awesome projects to life.

EXPERIENCE

Front-end Project manager and developer at Toorbin Jul. 2024 - Present

- Led the website development.
- Managed and mentored interns, assigned tasks and guided their progress.

Front-end developer at Science and Technology Park Des. 2023 - Oct. 2024

- Developed the front-end interface for an AI-driven platform that analyzes scientific documents.
- Focused on creating a user-friendly experience that visualized complex data effectively.
- Collaborated with the research team to integrate the front-end with back-end AI tools.
- Received a recommendation from Dr. Marzieh Rahimi, shahrood university of technology. (Available upon request)

Participant in WRO selection competitions 2014 - 2016

- The World Robot Olympiad (WRO) is a global robotics competition for young people. WRO competition uses Lego Mindstorms manufactured by LEGO Education.

EDUCATION

Shahrood University of technology

B.S, Computer Engineering
Sep. 2021 - Present
Shahrood, Iran
GPA: 17.20

SKILLS

Back-end

- Go
- Express
- NodeJS
- Postgre
- MySQL
- GraphQL

Front-end

- React
- Nextjs
- Typescript
- Tailwindcss
- SASS
- Zustand

Soft Skills

- Communication
- Problem-solving
- Critical thinking
- Creativity

Tools

- Linux
- Neovim
- Vscod
- Vite
- Figma

LANGUAGES

- Persian (native)
- English (Fluent)
- Dutch (Beginner)

INTERESTS

- Programming
- Robotic
- Philosophy
- Music
