9. Virtualization: Oracle VirtualBox. Text Editors: Vim.

Future Focus / Learning Roadmap

Kubernetes, Ansible, Terraform, Monitoring & Logging Tools, Go (Golang), Rust.

Professional Summary

A motivated Computer Science graduate with a strong passion for DevOps, actively seeking entry-level opportunities to contribute to infrastructure automation and reliable systems. I possess a foundational understanding and hands-on experience through project work, eager to apply my skills in a dynamic DevOps team. Committed to continuous learning and growth in the field.

Projects

Simple-app
simple-node-app
simple-python-app
simple-multi-stage-docker
node-postgres-docker-app
nodejs-pg-redis-docker-compose

Description: Orchestrated a multi-service application with Node.js, PostgreSQL, and Redis using Docker Compose.
